

Stanley® Vidmar® SPECIALTY LOCKER

**TOUGH
STORAGE
SOLUTIONS™**

Safely store your personal protection equipment (PPE) and other gear.

Stanley Vidmar makes the protection and organization of PPE effortless. Features of our heavy-duty specialty lockers include vented doors for necessary airflow, unlimited drawer and storage configurations, and a lifetime warranty. Store everything from breathing apparatus and ear/eye protection to gloves and clothing.

More Efficient Inspections: Our specialty lockers have an assigned location/compartment for equipment that requires periodic testing and inspection. Inspectors can move quickly from one cabinet to the next, finding wanted items in the same relative position every time.

Worker-Only/Soldier-Only Access: Vidmar personal protection lockers provide a lockable upper storage compartment for a jacket, boots, equipment, foul weather gear, and other items. The storage compartment is accessible only to the assigned individual.

Extended Shelf Life: Personal protection equipment is often stored in canvas bags, putting sensitive equipment at risk of being damaged. Vidmar-tough compartments keep sensitive items safe and protected.

For more information on our specialty locker solutions or a FREE site analysis, call **800-523-9462** or visit StanleyVidmar.com/Lockers.

Lockable upper storage compartment protects your belongings

Unlimited drawer and storage configurations

Single-Cab Locker

Stanley® Vidmar® SPECIALTY LOCKER

Ideal for a range of industries from fire and police departments to the military and healthcare facilities.

Features of our specialty lockers include:

- Dedicated drawer storage that prevents the unnecessary handling of items, thereby increasing the shelf life of expensive personal protection equipment (PPE)
- Identical drawer loading diagrams that help expedite frequent PPE inspections
- Expanded storage space to store outerwear, boots, and other personal items
- Space-saving personal protection solutions that can reduce your overall footprint
- Flexible modular storage solutions that can be infinitely expanded
